The Philosophy of our Pharmacy:

EXPERIENCE NEW HEALTH

Be healthy, stay healthy, experience new health

The **pharmacy and drugstore "Zur Gnadenmutter"** (translation: *Mother of Grace*) was founded in 1718. It continues a centuries-old tradition of the production of health products based on European medicinal plants. Its most famous product, the Mariazell digestive drops, has been manufactured according to an original recipe since 1780 in our private laboratory. Today, the company carries more than 100 unique health products for the body, mind and soul, which have become widely popular in the meantime. The current owner, Mag. Pharm. Dr. Angelika Prentner, complements modern medicine with treasures gleaned from over 300 years of experience in the pharmacy and thousands of years of knowledge about traditional European medicine.

OUR LIQUEURS:

DER APOTHEKER THE PHARMACIST

Our famous herbal liqueurs for treating complaints of the stomach, liver and gall bladder have been produced for nearly 200 years in our pharmacy, which is rich in tradition. The oldest written records of our herbal recipes are dated from the year 1835. The liqueurs are produced according to an old traditional method of production by hand. Only the most valuable herbs are used. These liqueurs work wonders to treat the discomfort that arises after eating too much or too richly. They may also simply be enjoyed as a digestive, taken after a leisurely meal. All herbs and roots are tested according to the guidelines of the European Pharmacopoeia (Austrian translation) for quality and purity.
